

RERTR-2011 International Meeting

Santiago, Chile

Marriott Santiago Hotel

October 9-13, 2011

The U.S. Department of Energy / National Nuclear Security Administration's Office of Global Threat Reduction announces it will host the "RERTR 2011 International Meeting on Reduced Enrichment for Research and Test Reactors" to be held in Santiago, Chile from **October 9-13, 2011**. This will be the 33rd annual meeting covering general topics related to the conversion of research reactors within the Global Threat Reduction Initiative. The meeting will be organized by Argonne National Laboratory, Chilean Nuclear Energy Commission (CCHEN) and Idaho National Laboratory.

HEADS-UP: The dates for RERTR-2011 were changed because of a scheduling issue at the Santiago Marriott Hotel.

Additional information will be provided at the RERTR-2011 website as it becomes available.
